

It is not exactly known when wine production began in Calatayud. However, it is thought that grape growing and wine consumption were important before the time of the Romans.

In the whole of the Calatayud area BODEGAS LANGA is the sole family cellar of Wine & Cavas. Its privileged location, protected by the Vicor Mountains, makes it the most outstanding and technologically advanced of all cellars under the Calatayud C.R.D.O.

The darkness and quietness of the cellar, where the wines rest, is broken when the voice of one of the members of the Langa family comes in; to watch, control and ensure that everything is in order, and that the wines are evolving as they should.

The business has a complete family structure where Sr. Juan José Langa is the Manager Director, his sister Sta. Maria Teresa Langa is in charge of the heavy administrative tasks and Juan José's sons; Juan and Cesar Langa Gonzalez are responsible for the technical area. In this way, the problems, solutions, new projects, and hopes stay within the family setting.

At present; BODEGAS LANGA Hnos.S.L. is also the leading producer of the Cava from Aragón.
