

Mason Cellars was founded in Oakville, California in 1993 by Randy and Megan Mason. Randy Mason is well grounded in the Napa Valley with over 34 years of winemaking experience and is the master behind the wine. As a resident of Yountville, California for 25 years, Randy Mason is a true Sauvignon Blanc master and has earned the title of winemaker with the credentials to show.

What distinguishes Mason's wines from other wines is that he enjoys and adheres only to making wines that are true to their varietal character. He achieves this trueness and consistency by using the same vines year after year and by spending much time in the vineyard prior to harvesting. Mason believes in letting the fruit show through in the wine and not to add a lot of processes and unnatural enhancements; a true California style winemaker.
